# 1968 TABLE

Listed on these two pages are the complete Tables of Contents for the 1968 issues of MATERIALS PROTECTION, Volume 7. All these articles have been thoroughly indexed in the following pages under the Alphabetical Subject Index and the Alphabetical Author Index.

Location of information published in this journal during 1968 is easy. Simply look in the Alphabetical Subject Index for the sub-

## January Page

Corrosion Prevention for Structural Steel in the Construction Industry by Jerry R. Castleberry.....	19
Performance of Construction Materials for Domestic Water Piping Systems by Harold E. Wilson.....	24
Evaluation of Epoxy Resin Coatings on Steel Support Structures by Paul R. Yingst.....	28
Simulated Field Usage Testing Organic Inhibitors for Oil and Gas Wells by A. C. Nestle.....	31
The Electron Microprobe—Its Role in Corrosion Prevention by W. M. Gauntt.....	34
How to Prevent Stress Corrosion Cracking of Radio-active Waste Storage Tanks by M. L. Holzworth, R. M. Girdler, L. P. Costas, and W. C. Rion.....	36
Comparison of U and Mo in Improving the Corrosion Resistance of AISI 430 Stainless Steel by G. J. Biefer, and J. G. Garrison.....	39
Corrosion of Metals in Tropical Environments—Copper and Wrought Copper Alloys by Charles R. Southwell, Allen L. Alexander, and Charles W. Hummer, Jr.....	41

## February Page

On-Stream Desludging of Cooling Systems by John M. Donohue and George A. Woods.....	15
Corrosion Inhibition of H-Oil Processes by David W. McDowell, Jr.....	18
Cleaning Refinery Equipment with Explosives by Robert Eells, Jack E. Brown, and Bill E. White.....	21
Sea Water—Its Use as an Industrial Coolant by W. B. Brooks.....	24
Limitations on HVDC Electrode Proximity to Buried Pipelines by Thomas B. Hayes.....	27
How to Identify Types 316 and 347 Stainless Steels by X-Ray Emission Spectroscopy by Mack C. Harvey and Bert Wyman.....	30
A Comparison of Two Alloys for Marine Engine Cooling System Fittings by F. B. Patten and A. H. Roebuck.....	31

A Study of Electrochemical Efficiencies of Aluminum Galvanic Anodes in Sea Water by T. J. Lennox, Jr., M. H. Peterson, and R. E. Groover.....	33
Contract and Plant Force Painting: Advantages and Disadvantages by NACE Task Group T-6D-8 on Contract Vs Maintenance Painting.....	39
A Survey of Fiber Glass Epoxy Line Pipe Service.....	43

## March Page

Corrosion Prevention for Concrete and Metal Reinforcing in the Construction Industry by Jerry R. Castleberry.....	21
How Chlorides Affect Concrete Used With Reinforcing Steel—Laboratory and Field Tests by R. F. Stratfull.....	29
Inhibiting Mild Steel in Nitrogen Fertilizers by William P. Banks.....	35
Performance of Al-Zn-Sn Alloy Anodes in Sea Water Service by B. M. Ponchel and R. L. Horst, Jr.....	38
Application of a Modified Cast HF Alloy for Hydrocracker Service by G. R. Prescott and J. J. Heller.....	43
The Mechanism of Steel Corrosion in Concrete (Also—Fundamentals of the Corrosion Mechanism) by I. Cornet, T. Ishikawa, and B. Bresler.....	44

## April Page

Evaluation of Coatings in Potable Water Tanks by John D. Keane.....	20
New Organic Inhibitor Retards Sulfide Corrosion Cracking by B. R. Keeney, R. M. Lasater and J. A. Knox.....	23
Cathodic Protection of Offshore Structures by J. A. Burgbacher.....	26
Fatigue Cracking of Oil Well Sucker Rods by Joseph F. Chittum.....	30
Decontamination of Nuclear Reactor Systems by A. P. Larrick and R. D. Weed.....	34
How Zinc Rich Epoxy Coatings Protect Structures by E. R. Hinden.....	38

## May Page

Reinforced Plastic Equipment for Textile Manufacturing by J. H. Mallinson.....	19
Reinforced Plastic Equipment for Chemical Manufacturing by Otto H. Fenner.....	23
Reinforced Plastic Equipment for Pulp and Paper Manufacturing by Arthur F. Greenfield.....	26
Materials Performance in San Diego's Sewers by Ralph E. Graham.....	28
Tests Show How Sea Water Affects Wire—Strand and Rope by Vincent C. Peterson and David Tamor.....	32
How Sodium Potassium Eutectic Alloy Affects Type 316 Stainless Steel by T. L. Hoffman, R. A. Moen, and K. C. Sumpter.....	35
Corrosion Problems in Phosphoric Acid Production by O. L. Riggs, Jr. and W. P. Banks.....	39
Corrosion Prevention for Structural Fasteners in the Construction Industry by Jerry R. Castleberry.....	43

## June Page

Sulfide Stress Cracking Causes Failure of Compressor Components in Refinery Service by G. B. Kohut and W. J. McGuire.....	17
Stress Corrosion Cracking of Oilfield Tubing in Aqueous Hydrochloric Acid by A. W. Coulter and T. S. Claiborne.....	23
The Role of Quality Control in Preventing Corrosion in Electrical Circuitry by C. H. Hutcherson.....	27
New Test Accelerates Aluminum Corrosion by F. T. Mansur.....	31
A method for Selecting the Most Economical Magnesium Anode by Bernard Husock, P.E.....	33

## July Page

Corrosion and Its Prevention in a Monoethanolamine Gas Treating Plant by E. Williams and H. P. Leckie.....	21
--	----

# OF CONTENTS

ject you want. Then refer to the issue which is given by month and page number.

Articles in **MATERIALS PROTECTION** are also indexed regularly in "Engineering Index", "Chemical Abstracts", and "Corrosion Abstracts". Bound volumes of these three indexing services are available at most libraries. Reprints of all articles published in **MATERIALS PROTECTION** can be obtained at nominal costs. Write to NACE, 2400 West Loop South, Houston, Texas 77027.

Recent Radioactive Tracer Method Measures Leaching Rate of Chromium by Alfred L. Glass.....	26
Procedure Improved for Determining Corrosion Rate by Weight Loss by E. S. Matsui.....	31
Cathodic Protection—The Answer to Corrosion Prevention of Underground Structures? by L. H. West.....	33
Corrosion Performance of 90-10 Tantalum-Tungsten Alloy by B. G. Staples and William S. Galloway, Jr.....	34
Applications of Zirconium—the Atomic Age Metal by W. R. Brady.....	40

## August Page

Materials Selection and Corrosion in Wastewater Systems by J. H. Rigdon.....	22
Advantages of Using APC Rectifiers for Cathodic Protection by Ronald Ferry.....	26
Is Fire Retardant Polyether Foam Corrosive to Metal? by N. C. W. Judd.....	30
A Comparison of Inhibitive Abrasive Blasting Techniques by Isidore Geld, Leo Deutsch, and Frank J. O'Orla.....	32
"Elastic Memory" Causes Heat Shrinkable Plastics to Be Effective Protective Coatings by A. B. Newey.....	35
A Study of the Inhibiting Effect of Ferrous Chloride on the Corrosion Rate of Steel in HCl by Maurine H. Jones and B. D. Oakes.....	38

## September Page

Metallizing Takes a Back Seat to Flame Spray by Jack Blasingame.....	21
Boiler Water Carryover Causes Corrosion of Tubes During Production of Hydrogen by Joseph J. Fitzharris and Donald B. Bird.....	24
Antifoulants and Inhibitors Reduce Fouling and Corrosion of Refinery Equipment by G. R. Port.....	29
The Corrosion Engineer—His Role in the Process Industry by C. P. Dillon.....	32
Preventing Pitting and General Corrosion of Stainless Steel in Phosphoric Acid by William P. Banks and Merle Hutchison.....	37

Shot Peening Prevents Stress Cracking of Aircraft Equipment by J. H. Milo.....	39
Highly Resistant Copper Deteriorates in Severely Corrosive Soils by W. J. Schwerdtfeger.....	43

## October Page

Materials for Desalination Equipment to be Studied by Jerry R. Castleberry.....	17
Corrosion of Metals in Desalination Environments by C. F. Schreiber, O. Osborn and F. H. Coley.....	20
Titanium Alloys: Design Can Prevent Stress Corrosion Cracking by H. R. Herrigel and J. C. Sargent.....	26
Selection of Materials for Desalination Plants by R. M. Ahlgren.....	31
Comparison of the Soil Resistance of Ductile Iron Pipe and Gray Cast Iron Pipe by E. C. Sears.....	33
Ford Electrocoating Process: Principles of Process, Feed and Engineering by G. L. Burnside, G. E. F. Brewer, and G. G. Strosberg.....	37
Corrosion of Reinforcing Steel Bars in Concrete by W. K. Boyd and A. B. Tripler, Jr.....	40

## November Page

History's Largest Cathodic Protection Job Completed in the Mississippi Delta by Jerry R. Castleberry.....	21
Environmental Cracking Susceptibility of High Strength Steels by G. J. Bieker.....	23
Aluminum Corrosion: Possible Mechanisms of Inhibition by D. B. Boies and B. J. Northan.....	27
Current Densities—A Factor in Hydrogen Embrittlement of Cathodically Protected Steels in Sea Water by Isidore Geld and Mario A. Acampora.....	31
Effects of Polymeric Film Properties on the Corrosion of Metal by R. N. Miller.....	35

Controlling Noise Induction and Injection Into Voice Frequency Telephone Circuits from Cathodic Protection Rectifiers, Report of NACE Technical Unit Committee T-10A-4 on Cable Sheath Cathodic Protection.....	65
---	----

## December Page

Corrosion of Steel by Sulfides and Cyanides in Refinery Condensate Water by Joerg Gutzeit.....	17
Plastic Piping for Water and Wastewater Systems by R. T. Richey.....	25
Coatings for Cans: Selection and Performance by R. D. McKirahan and R. J. Ludwigen.....	29
Is Anodic Protection Effective in Preventing Steel Corrosion in H <sub>2</sub> SO <sub>4</sub> ? by J. M. Stammen.....	33
Getty Oil's Experience With Packer Fluids by G. L. Nunn and O. H. Haveman.....	37
A Survey of Corrosion Control in Drilling and Annular Fluids by NACE Task Group T-1D-4 on Corrosion Control in Drilling and Annular Fluids.....	47

## REPRINTS

Reprints of any technical paper published in **MATERIALS PROTECTION** during 1968 can be obtained for a nominal fee. For information write: J. F. Vander Henst, Jr., NACE, 2400 West Loop South, Houston, Texas 77027.

## Alphabetical Author Index

### MATERIALS PROTECTION

Volume 7, 1968

#### A

- Acampora, Mario A.  
See Isidore Geld.....Nov 31  
Alexander, Allen L.  
See Charles R. Southwell and Charles  
W. Hummer, Jr.....Jan 41  
Ahlgren, R. M.  
Selection of Materials for Desalination  
Plants.....Oct 31

#### B

- Banks, W. P.  
See O. L. Riggs.....May 39  
Inhibiting Mild Steel in Nitrogen  
Fertilizers.....Mar 35  
Preventing Pitting and General Corrosion  
of Stainless Steel in Phosphoric Acid,  
with Merle Hutchison.....Sept 37  
Biefer, G. J.  
Comparison of U and Mo in Improving  
the Corrosion Resistance of AISI 430  
Stainless Steel, with J. G. Garrison.....Jan 39  
Environmental Cracking Susceptibility of  
High Strength Steels.....Nov 23  
Bird, Donald B.  
Boiler Water Carryover Causes Corrosion  
of Tubes During Production of Hydro-  
gen, with Joseph J. Fitzharris.....Sept 24  
Blasingame, Jack  
Metallizing Takes a Back Seat to Flame  
Spray.....Sept 21  
Boies, D. B.  
Aluminum Corrosion: Possible Mechanisms  
of Inhibition, with B. J. Northan.....Nov 27  
Boyd, W. K.  
Corrosion of Reinforcing Steel Bars in  
Concrete with A. B. Tripler, Jr.....Oct. 40  
Brady, W. R.  
Application of Zirconium—the Atomic  
Age Metal.....July 40  
Bresler, B.  
See I. Cornet and T. Ishikawa.....Mar 44  
Brewer, G. E. F.  
See G. L. Burnside and G. G. Strosberg.....Oct 37  
Brooks, W. B.  
Sea Water—Its Use as an Industrial  
Coolant.....Feb 24  
Brown, Jack E.  
See Robert Eells, and Bill E. White.....Jan 21  
Burgbacher, J. A.  
Cathodic Protection of Offshore  
Structures.....Apr 26  
Burnside, G. L.  
Ford Electrocoating Process: Principles  
of Process, Feed and Engineering, with  
G. E. F. Brewer, and G. G. Strosberg.....Oct 37

#### C

- Castleberry, Jerry R.  
Corrosion Prevention for Structural Steel  
in the Construction Industry.....Jan 19  
Corrosion Prevention for Concrete and  
Metal Reinforcing in the Construction  
Industry.....Mar 21  
Corrosion Prevention for Structural  
Fasteners in the Construction Industry.....May 43  
Materials for Desalination Equipment  
to be Studied.....Oct 17  
History's Largest Cathodic Protection Job  
Completed in the Mississippi Delta.....Nov 21  
Chittum, Joseph F.  
Fatigue Cracking of Oil Well  
Sucker Rods.....Apr 30  
Claiborne, T. S.  
See A. W. Coulter.....June 23  
Coley, F. H.  
See O. Osborn and C. F. Schreiber.....Oct 20  
Cornet, I.  
The Mechanism of Steel Corrosion in  
Concrete (Also, Fundamentals of the  
Corrosion Mechanism) with  
T. Ishikawa.....Mar 44  
Costas, L. P.  
See M. L. Holzworth.....Jan 36  
Coulter, A. W.  
Stress Corrosion Cracking of Oilfield  
Tubing in Aqueous Hydrochloric Acid,  
with T. S. Claiborne.....June 23

#### D

- D'Oria, Frank J.  
See Leo Deutsch, and Isidore Geld.....Aug 32  
Deutsch, Leo  
See Isidore Geld, and Frank J. D'Oria.....Aug 32  
Dillon, C. P.  
The Corrosion Engineer—His Role in the  
Process Industry.....Sept 32  
Donohue, John M.  
On-Steam Desludging of Cooling  
Systems with George A. Woods.....Feb 15

#### E

- Eells, Robert  
Cleaning Refinery Equipment With  
Explosives, with Jack E. Brown.....Feb 21

#### F

- Fenner, Otto H.  
Reinforced Plastic Equipment for  
Chemical Manufacturing.....May 23  
Ferry, Ronald  
Advantages of Using APC Rectifiers  
for Cathodic Protection.....Aug 26

- Fitzharris, Joseph J.  
Boiler Water Carryover Causes Corrosion  
of Tubes During Production of  
Hydrogen, with Donald B. Bird.....Sept 24

#### G

- Galloway, William S., Jr.,  
with Staples, B. G.....July 34  
Garrison, J. G.  
See G. J. Biefer.....Jan 39  
Gauntt, W. M.  
The Electron Microprobe—Its Role in  
Corrosion Prevention.....Jan 34  
Geld, Isidore  
A Comparison of Inhibitive Abrasive  
Blasting Techniques, with  
Frank J. D'Oria and Leo Deutsch.....Aug 32  
Current Densities—A Factor in Hydrogen  
Embrittlement of Cathodically Protected  
Steels in Sea Water, with  
Mario A. Acampora.....Nov 31  
Girdler, R. M.  
See M. L. Holzworth.....Jan 36  
Glass, Alfred L.  
Recent Radioactive Tracer Method  
Measures Leaching Rate of Chromium.....July 26  
Graham, Ralph E.  
Materials Performance in San Diego's  
Sewers.....May 28  
Greenfield, Arthur F.  
Reinforced Plastic Equipment for Pulp  
and Paper Manufacturing.....May 26  
Groover, R. E.  
See T. J. Lennox and R. E. Peterson.....Feb 33  
Gutzeit, Joerg  
Corrosion of Steel by Sulfides and Cyanides  
in Refinery Condensate Water.....Dec 17

#### H

- Harvey, Mack C.  
How to Identify Types 316 and 347  
Stainless Steels by X-Ray Emission  
Spectroscopy, with Bert Wyman.....Feb 30  
Haveman, O. H.  
See G. L. Nunn.....Dec 37  
Hayes, Thomas B.  
Limitations on HVDC Electrode Proximity  
to Buried Pipelines.....Feb 27  
Heller, J. J.  
See G. R. Prescott.....Mar 43  
Herrigel, H. R.

Jones, Maurine H.	
A Study of the Inhibiting Effect of Ferrous Chloride on the Corrosion Rate of Steel in HCl, with B. D. Oakes.....	Aug 38
Judd, N. C. W.	
Is Fire Retardant Polyether Foam Corrosive To Metal?.....	Aug 30

## K

Keane, John D.	
Evaluation of Coatings in Potable Water Tanks.....	Apr 20
Keeney, B. R.	
New Organic Inhibitor Retards Sulfide Corrosion Cracking, with R. M. Lasater, and J. A. Knox.....	Apr 23
Knox, J. A.	
See B. R. Keeney, and R. M. Lasater.....	Apr 23
Kohut, G. B.	
Sulfide Stress Cracking Causes Failure of Compressor Components in Refinery Service, with W. J. McGuire.....	June 17

## L

Larrick, A. P.	
Decontamination of Nuclear Reactor Systems, with R. D. Weed.....	Apr 34
Lasater, R. M.	
See B. R. Keeney and J. A. Knox.....	Apr 23
Leckie, H. P.	
See E. Williams.....	July 21
Lennox, T. J., Jr.	
A Study of Electrochemical Efficiencies of Aluminum Galvanic Anodes in Sea Water, with M. H. Peterson.....	Feb 33
Ludwisen, R. J.	
See R. D. McKirahan.....	Dec 29

## Mc

McDowell, David W., Jr.	
Corrosion Inhibition of H-Oil Processes.....	Feb 18
McGuire, W. J.	
See G. B. Kohut.....	June 17
McKirahan, R. D.	
Coatings for Cans: Selection and Performance.....	Dec 29

## M

Mallinson, J. H.	
Reinforced Plastic Equipment for Textile Manufacturing.....	May 19
Mansur, F. T.	
New Test Accelerates Aluminum Corrosion.....	June 31
Matsui, E. S.	
Procedure Improved for Determining Corrosion Rate by Weight Loss.....	July 31
Miller, R. N.	
Effects of Polymeric Film Properties on the Corrosion of Metal.....	Nov 35
Milo, J. H.	
Shot Peening Prevents Stress Cracking of Aircraft Equipment.....	Sept 39
Moen, R. A.	
See T. L. Hoffman and K. C. Sumpter.....	May 35

## N

NACE Task Group T-ID-4	
Report: A Survey of Corrosion Control in Drilling and Annular Fluids.....	Dec 47
NACE Task Group T-6D-8	
Report: Contract and Plant Force Painting: Advantages and Disadvantages.....	Feb 39
NACE Technical Committee T-10A Report: Controlling Noise Induction and Injection Into Voice Frequency Telephone Circuits from Cathodic Protection Rectifiers.....	Nov 65
Nestle, A. C.	
Simulated Field Usage Testing Organic Inhibitors for Oil and Gas Wells.....	Jan 31
Newey, A. B.	
"Elastic Memory" Causes Heat Shrinkable Plastics to Be Effective Protective Coatings.....	Aug 35
Northan, B. J.	
See B. D. Boies.....	Nov 27
Nunn, G. L.	
Getty Oil's Experience With Packer Fluids.....	Dec 37

## O

Oakes, B. D.	
See Maurine H. Jones.....	Aug 38
Osborn, O.	
See C. F. Schrieber and F. H. Coley.....	Oct 20

## P

Patten, F. B.	
A Comparison of Two Alloys for Marine Engine Cooling System Fittings, with A. H. Roebuck.....	Feb 31
Peterson, M. H.	
See T. J. Lennox and R. E. Groover.....	Feb 33
Peterson, Vincent C.	
Tests Show How Sea Water Affects Wire—Strand and Rope, with David Tamor.....	May 32
Ponchel, B. M.	
Performance of Al-Zn-Sn Alloy Anodes in Sea Water Service, with R. L. Horst, Jr.....	Mar 38
Port, G. R.	
Antifoulants and Inhibitors Reduce Fouling and Corrosion of Refinery Equipment.....	Sept 29
Prescott, G. R.	
Application of a Modified Cast HF Alloy for Hydrocracker Service, with J. J. Heller.....	Mar 43

## R

Richey, R. T.	
Plastic Piping for Water and Wastewater Systems.....	Dec 25

Rigdon, J. H.	
Materials Selection and Corrosion in Wastewater Systems.....	Aug 22
Riggs, O. L.	
Corrosion Problems in Phosphoric Acid Production, with W. P. Banks.....	May 39
Rion, W. C.	
See M. L. Holzworth.....	Jan 36
Roebuck, A. H.	
See F. B. Patten.....	Feb 31

## S

Sargent, J. C.	
See H. R. Herrigel.....	Oct 26
Schreiber, C. F.	
Corrosion of Metals in Desalination Environments, with O. Osborn and F. H. Coley.....	Oct 20
Schwerdtfeger, W. J.	
Highly Resistant Copper Deteriorates in Severely Corrosive Soils.....	Sept 43
Sears, E. C.	
Comparison of the Soil Resistance of Ductile Iron Pipe and Gray Cast Iron Pipe.....	Oct 33
Southwell, Charles R.	
Corrosion of Metals in Tropical Environments—Copper and Wrought Copper Alloys, with Allen L. Alexander and Charles W. Hummer, Jr.....	Jan 41
Stammen, J. M.	
Is Anodic Protection Effective in Preventing Steel Corrosion in H <sub>2</sub> SO <sub>4</sub> .....	Dec 33
Staples, B. G.	
Corrosion Performance of 90-10 Tantalum-Tungsten Alloy, with William S. Galloway, Jr.....	July 34

## Y

Yingst, Paul R.	
Evaluation of Epoxy Resin Coatings on Steel Support Structures.....	Jan 28

## Want to Submit a Paper?

Technical manuscripts submitted for publication to MATERIALS PROTECTION should (1) present new or unpublished information, (2) present a hypothesis or theory not generally known or understood, (3) generalize and correlate published information, and (4) be of sufficient general interest and value.

Subject matter may concern one or more of the following: (1) deterioration of metals by corrosion, (2) characteristics of corrosive environments, (3) methods of materials used to prevent or control corrosion, (4) instruments used in corrosion investigations or in corrosion mitigation, (5) analytical and statistical methods used in corrosion studies, (6) economics of corrosion control, (7) deterioration of nonmetallic materials of construction, (8) organization and administration of corrosion control programs, and (9) techniques and systems valuable in protecting materials.

Manuscripts to be considered for publication should be submitted in triplicate to the Publications Department, NACE, 2400 West Loop South, Houston, Texas 77027. If possible, each of the three copies should contain a complete set of illustrations and tables. At least one set of figures should be suitable for reproduction purposes.

Manuscripts are submitted to the journal's technical advisers and Editor for technical review. The reviewers consider such factors as length, timeliness of subject matter, thoroughness of documentation and nature of subject matter.

After approval for publication, the manuscript is then edited and prepared by a member of the journal's staff.

Final decision for publication of a manuscript rests with the Editor.

# MATERIALS PROTECTION

## Alphabetical Subject Index

### Volume 7, 1968

#### A

Abrasive blasting, inhibitive, for metal surface preparation, testing, Aug 32  
Absorption, effect on electrical resistivity of concrete, Mar 29

#### ACID

Calcium ammonium nitrate, stress corrosion testing with high strength steel, Nov 23  
Hydrochloric, effects on 90-10 tantalum-tungsten alloy, July 34  
Hydrochloric, effects on zirconium, July 40  
Hydrochloric, for pickling continuous steel sheet, testing, Aug 38  
Hydrochloric, inhibited and uninhibited, effects on stress corrosion of steel tubing for oil field service, June 23  
Nitric, effects on 90-10 tantalum-tungsten alloy, July 34  
Phosphoric, manufactured by the wet process, May 39  
Runoff, causes damage in Pt. Loma tunnel, May 28  
Sulfuric, mixed with abrasive for inhibition of corrosion of freshly abraded steel, testing, Aug 32  
Sulfuric, effect on corrosion rate of carbon steel equipment May 39  
Sulfuric, effects on 90-10 tantalum-tungsten alloy, July 34  
Sulfuric, effects on zirconium, July 40  
Sulfuric, for pickling continuous steel sheet, testing, Aug 38  
Sulfuric, stress corrosion testing with high strength steels, Nov 23  
Acidity, effect on sulfide stress cracking of steel in hydrogen sulfide environments, June 17  
Acrylic resins, effect on corrosion of metals, Nov 35  
Admiralty, tubing in desalination plant, Oct 20

#### AIRCRAFT

Chromated aluminum surfaces, leaching rate of chromium from, testing, July 26  
Circuitry, role of quality control in corrosion prevention, June 27  
Electron microprobe, use in aerospace industry, Jan 34  
Forgings, stress corrosion cracking prevention by shot peening, Sept 39  
Air-entrained concrete, advantages of, Mar 21  
Alkalinity, effect on sulfide stress cracking of steel in hydrogen sulfide environments, June 17  
Altoona water, use in testing aluminum alloys for engine cooling system fittings, Feb 31

#### ALUMINUM

Alloy anodes of, evaluation for offshore service, Apr 26

Alloy anodes of, evaluation of performance in sea water, Mar 38  
Alloys, clad and unclad, testing of effects of polyether foam, Aug 30  
Alloys, desalination plant equipment materials selection, Oct 17  
Alloys in castings for use in marine and automotive engines, Feb 31  
Anodes, unique design, Nov 21  
Brass alloy condenser tubes in sea water, Feb 24  
Brass alloys, materials selection for desalting plants, Oct 31  
Brass alloy, tubing in desalination plant, Oct 20  
Can Stock for can manufacturing, Dec 29  
Construction material for waste water systems, Aug 22  
Corrosion acceleration facilitates testing of aluminum alloys, June 31  
Cracking, detection by electron microprobe, Jan 34  
Flame spray process, application of, Sept 21  
Forgings in aircraft, prevention of stress corrosion cracking by shot peening, Sept 39  
Galvanic anodes, electrochemical efficiencies in sea water, Feb 33  
Granules, for inhibition of corrosion of freshly abraded surfaces, testing, Aug 32  
Inhibitors to control corrosion of, Nov 27  
Paint for titanium, prevention of stress corrosion cracking, Oct 26  
Pitting, detection by electron microprobe, Jan 34  
Polymeric films, effect on corrosion of, Nov 35  
Sea water effects on, Feb 24  
Stress corrosion on cracking of aircraft forgings, prevention by shot peening, Sept 39  
Structures, welding Al-Zn-Sn anodes to surface, Mar 38  
Surfaces of naval aircraft coated with chromate, chromium leaching from, July 26  
Aluminized wire rope, sea water corrosion of, testing, May 32  
Ammonia, corrosion effect on desalting plant materials, Oct 31  
Ammonium nitrate-ammonia solutions aqueous, inhibited and uninhibited, testing of mild steel in (tables), Mar 35  
Ammonium nitrate-ammonia-urea solutions, aqueous, inhibited and uninhibited, testing of mild steel in (tables), Mar 35

#### ANODES

Aluminum alloys in sea water, Feb 24  
Aluminum, electrochemical efficiencies in sea water, Feb 33  
Aluminum in flame spray coating process, Sept 21

Aluminum, unique design, Nov 21  
Dielectric shielding on ship hulls, Nov 31  
Galvanic, Al-Zn-Sn alloy, performance in sea water, testing (charts and figures), Mar 38  
Galvanic, aluminum alloy, evaluation for offshore service, Apr 26  
High-purity zinc in sea water, Feb 24  
Magnesium in sea water, Feb 24  
Magnesium, selection of the most economical, June 33  
Plastic coating for wire anode connections, Aug 35  
Sacrificial mixed with APC rectifiers for sea water cathodic protection, Aug 26  
Zinc in flame spray coating process, Sept 21  
Anodic protection, carbon steel in phosphoric acid, May 39  
Anodic protection of mild steel exposed to concentrated sulfuric acids, Dec 33  
Asbestos, cement pipe, domestic water piping systems, Jan 24  
Automatic potential control, methods, saturable-reactor and silicon-controlled, applications, Aug 26  
Automobiles, electrocoating process, feed, engineering, Oct 37

#### B

Bacterial and biochemical action, effects on cooling systems, Feb 24  
Batch type system, electrocoating process for automobiles, Oct 37  
Bifouling, copperbase metals in tropical sea water, Jan 41  
Black liquor system gases, plastic container for, May 26  
Blasting with steel grit, surface preparation for flame spray coating process, Sept 21  
Bonding metal application, roughening method in flame spray process, Sept 21  
Brass, aluminum alloy, tubing in desalination plant, Oct 20

#### C

Cans, manufacture and coating process, Dec 29  
Cast iron piping, domestic water systems, Jan 24

#### CATHODIC PROTECTION

Aluminum galvanic anodes in sea water systems, Feb 33  
Al-Zn-Sn alloy anode for sea water service, Mar 38  
Anodes, aluminum, for offshore service, Apr 26  
Anodes, aluminum, unique design, Nov 21

Automatic potential control rectifier systems, saturable-reactor and silicon-controlled, comparison, Aug 26  
Controlling noise induction and injection into voice frequency telephone circuit from cathodic protection rectifiers, Nov 65  
Copper in severely corrosive soils, Sept 43  
Current densities, a factor in hydrogen embrittlement of cathodically protected steels in sea water, Nov 31  
Dielectric shields around anodes; effect of current densities on hydrogen embrittlement of ship hulls, Nov 31  
Galvanic effects with dissimilar metals in sea water, Feb 24  
HVDC, effect on underground pipelines, Feb 27  
Magnesium anodes, selection of the most economical, June 33  
Program for new construction and for existing structures, July 33  
Sea water systems, aluminum galvanic anodes, Feb 33  
Titanium, prevention of stress corrosion cracking, Oct 26  
Training for corrosion engineer, Sept 32  
Underground pipelines, effect of HVDC, Feb 27  
Cavitation attack on metals in sea water, Feb 24  
Chelants, cleaning agent for use in cooling systems, Feb 15

#### CHEMICAL PROCESS INDUSTRY

Construction material, 90-10 tantalum-tungsten alloy, corrosion performance of, July 34  
Corrosion engineers, role in the industry, Sept 32  
Equipment cleaning, use of explosives, Feb 21  
Monoethanolamine refining system, corrosion of equipment, July 21  
Phosphoric acid production by wet process, corrosion of carbon steel equipment, testing, May 39  
Plastic equipment for corrosive applications in, May 23  
Plastic piping for water and wastewater systems, Dec 25  
Role of corrosion engineers, Sept 32  
Stainless steel heat exchanger circulates NaK eutectic alloy for waste calcining facility, May 35  
Zirconium, corrosion resistant material, July 40  
Chloride effect on electrical resistivity of concrete (table), Mar 29  
Chlorine dioxide service, use of plastics in, May 26  
Chromate conversion coatings on aluminum surfaces, chromium leaching of, testing, July 26  
Clay, vitrified, construction material for waste water systems, Aug 22

## CLEANING

- Blast, solvent, surface preparation for structural steel, Jan 19
- Chelants, sequestrants, dispersants, coagulants for cooling systems, Feb 15
- Refinery equipment chemical plants, use of explosives, Feb 21
- Cooling systems to prevent corrosion, Feb 15
- Refinery equipment, reduction of by inhibitor injection, Sept 29
- Solvent, parts to be flame sprayed, Sept 21
- Closed-circuit potential, galvanic anodes, Feb 33
- Coagulants, cleaning agent for cooling systems, Feb 15

## COATINGS, INORGANIC

- Asbestos, domestic water piping systems, Jan 24
- Costs of materials, labor, Jan 19
- Chromate conversion, for aluminum surfaces of naval aircraft, July 26
- Gilsonite, corrosion prevention of steel reinforcing bars in concrete, Oct 40
- Performance and protection, comparison with organic coatings, Apr 38
- Silicates, fluosilicates and silicon tetrafluoride for concrete, Mar 21
- Structural steel, corrosion prevention in building construction, Jan 19
- Zinc, flame spray process, Sept 21
- Zinc-silicate, phosphate, ethyl silicate, silica, butyl titanate, Jan 19

## COATINGS, METALLIC

- Aluminized wire rope, testing in sea water, May 32
- Aluminum, flame spray process, Sept 21
- Copper coupled with steel reinforcing bar, prevention of corrosion in concrete, Oct 40
- Flame-spray process, uses, Sept 21
- Floating, for ballast tanks of floating dry docks, July 31
- Galvanized wire, testing in sea water, May 32
- Lead coupled with steel reinforcing bar, prevention of corrosion in concrete, Oct 40
- Nickel coupled with steel reinforcing bar, prevention of corrosion in concrete, Oct 40
- Zinc coupled with steel reinforcing bar, prevention of corrosion in concrete, Oct 40

## COATINGS, ORGANIC

- Alkyd, for cans, Dec 29
- Cement mortar, corrosion prevention of steel reinforcing bars in concrete, Oct 40
- Cement mortar linings, domestic water piping systems, Jan 24
- Ceramic on concrete, Mar 21
- Coal tar enamel, domestic water piping systems, Jan 24
- Damage by cathodic protection on ship hulls, Nov 31
- Desalination plant equipment, Oct 17
- Electrodeposition, process for automobile industry, Oct 37
- Epoxy for waste water system equipment, Aug 22
- Epoxy line pipe for oil and gas industries, costs, Feb 43
- Epoxy resin for steel structures, Jan 28
- Neoprene coated specimens; effect of stress corrosion testing, Nov 23
- Oleoresinous, for cans, Dec 29
- Paraffinated resin coating, improper application causes poor adhesion, May 23
- Performance and protection comparison with inorganic coatings, Apr 38
- Phenolic, for potable water tanks, application, testing, Apr 20
- Plastic, domestic water piping systems, Jan 24
- Plastics, heat shrinkable, formation and application, Aug 35
- Polybutadiene, for can manufacturing, Dec 29
- Polyesters, for cans, Dec 29
- Polymeric films, effect on corrosion of metals, Nov 35
- Structural steel, corrosion prevention in building construction, Jan 19
- Tests on failure of, Nov 35
- Thermoplastic, on concrete, list, Mar 21
- Thermosetting, one-package system and two-package system, on concrete, Mar 21
- Vinyl, for cans, Dec 29

- Vinyl, for potable water tanks, application, testing, Apr 20
- Vinyl, for waste water system equipment, Aug 22
- Colloidal particles, cause of corrosion in cooling systems, Feb 15

## CONCRETE

- Air-entrained, advantages of, Mar 21
- Ceramic coating protection, Mar 21
- Composition and properties of, Mar 21
- Construction material for waste water systems, Aug 22
- Corrosion of metals in, methods of prevention, Mar 21
- Effect of chlorides on electrical resistivity, Mar 29
- Formulation and application, Mar 44
- Galvanized reinforcing steel, advantages of, Mar 44
- Grout, deterioration in Pt. Loma tunnel, May 28
- Inorganic coating protection, Mar 21
- Mortar coatings for protection, list, Mar 21
- Piping, sacrificial material in sewer system bulks, May 28
- Prestressed, failures of, Mar 44
- Prestressed pipe, domestic water systems, Jan 24
- Prestressing, failure in construction, Mar 21
- Reinforced, protection of, Mar 21
- Sheet materials for protection, Mar 21
- Steel, reinforced, causes of corrosion Mar 44
- Structures with reinforcing steel bars, steel corrosion prevention, Oct 40
- Testing, laboratory and field, to determine influence of moisture content, absorption and added chloride on electrical resistivity of, Mar 29
- Thermoplastic coatings for protection, list, Mar 21
- Thermosetting coatings, one-package system and two-package system for protection, Mar 21
- Water content effect on corrosion (charts), Mar 29
- Condenser, barometric, constructed of plastic, case history, May 19
- Conductivity measurements of salt solutions, study of corrosion of reinforcing steel bars in concrete, Oct 40
- Conveyor system, electro-coating process for automobiles, Oct 37
- Cooling systems, use of sea water, Feb 24

## COPPER

- Cathodic protection in severely corrosive soils, Sept 43
- Coating coupled with steel reinforcing bar, prevention of corrosion in concrete, Oct 40
- Corrosion resistance, tropical environments, Jan 41
- Desalination equipment materials selection, Oct 17
- Desalting plant materials corrosion, effect of, Oct 31
- Nickel alloy condenser tubes in sea water, Feb 24
- Nickel alloy, tubing in desalination plant, Oct 20
- Nickel alloys, materials selection for desalting plants, Oct 31
- Nickel alloys, sea water effects on, Feb 24
- Piping, domestic water systems, Jan 24
- Weight loss, tropical sea water, atmosphere, Jan 41
- Core shafts, wadding machine, plastic, May 26
- Crevice, caustic entrapped in, causes corrosion, Apr 34
- Crosslinkage of zinc epoxy coatings, Apr 38
- Crystallization vessel constructed of plastic, case history, May 19
- Curing, improper, cause of failure of plastic equipment, May 23
- Current output versus time characteristics for aluminum anodes compared to zinc anodes, Feb 33
- Current systems, impressed, new and existing, Apr 26

## D

- Decontamination of nuclear reactor system components, cause of corrosion, Apr 34
- Degreasing, surface preparation for flame spray coating process, Sept 21

- Delamination, cause of failure of plastic equipment, May 23
- Demisters, materials selection for desalination plant equipment, Oct 31
- Deposition tester, evaluate sludging potential of cooling water, Feb 15
- Desalination plant equipment, materials selection, Oct 17
- Desalination plant history, corrosion of metals in sea water, Oct 20
- Desalination plant, materials selection, Oct 31

## DESIGN

- Desalination plant, Oct 31
- Desalination plant in Freeport, Texas, Oct 20
- Electrical circuitry equipment, effects on corrosion, June 27
- Electrocoating system for automobiles, Oct 37
- Plastic piping for water and waste water systems, Dec 25
- Reactors in H-oil process units, Feb 18
- Specifications, inadequate, cause of plastic equipment failure, May 23
- Sand-diaphragm and steel-concrete cells, simulation of steel bars in concrete, Oct 40
- Titanium structures, stress corrosion cracking prevention, Oct 26
- Waste water treatment systems, Aug 22
- Dezincification, copper-zinc alloys in sea water, Jan 41
- Dielectric shielding of anodes on ship hulls, Nov 31
- Differential aeration, effect on corrosion of reinforcing steel bars in concrete, Oct 40
- Differential concentration, effect on corrosion of reinforcing steel bars in concrete, Oct 40
- Dispersants, cleaning agent for cooling systems, Feb 15
- Distillate troughs, materials selection for desalination plant equipment, Oct 31
- Duct system, plastic, case history May 19

## E

## ECONOMICS

- Al-Zn-Sn alloy anodes for sea water service, Mar 38
- Automatic potential control rectifier system for cathodic protection in sea water, factors favoring use, Aug 26
- Cathodic protection of new and existing offshore structures with aluminum anodes, Apr 26
- Cathodic protection program for new construction and for existing structures, July 33
- Concept of equivalent annual cost, June 33
- Contract painters for industrial maintenance painting program, Feb 39
- Education, training for corrosion engineer, Sept 32
- Epoxy pipe, fiberglass lined in oil and gas industries, Feb 43
- Explosives for cleaning refinery and chemical process equipment, Feb 21
- Industrial maintenance painting program, Feb 39
- Inhibitor injection program for refinery equipment provides savings, Sept 29
- Materials costs, domestic water piping systems, Jan 24
- Methods of surface preparation for structural steel, costs, Jan 19
- Painting program for industrial maintenance, Feb 39
- Plastic piping for building systems, a comparison, Dec 25
- Reinforced plastic equipment for textile manufacturing (table), May 19
- Selection of magnesium anode, June 33
- Education for corrosion engineers, undergraduate and postgraduate, Sept 32

## ELECTRICAL CURRENT

- Alternating and direct, conduction in saturable-reactor control elements and silicon-controlled rectifier control elements, Aug 26
- Conductivity of zinc epoxy coatings (chart), Apr 38
- HVDC, corrosion effects on underground pipe lines, Feb 27
- Throwing capacity of zinc rich epoxy coatings, Apr 38
- Electrical circuitry, corrosion of, case histories, role of quality control in corrosion prevention, June 27

- Electrical resistivity of concrete, effects of chlorides, moisture content and absorption on, (charts), Mar 29
- Electrochemical efficiencies of zinc anodes versus aluminum anodes, Feb 33
- Electrocoating process for automobiles, principles of process, feed and engineering, Oct 37
- Electrodes, platinum versus sulfide, Dec 17
- Electron beam microanalysis, corrosion detection in hydrogen reforming tubes, Sept 24
- Electron microprobe, use in aerospace industry, Jan 34

## EPOXY

- Coating for titanium, prevention of stress corrosion cracking, Oct 26
- Coating for waste water system equipment, Aug 22
- Coating on manholes and access structures, May 28
- Pipe, fiberglass lined, costs and uses for oil and gas industries, Feb 43
- Resin coatings on steel bridges, water front facilities; industrial plant supports, Jan 28
- Zinc rich coatings, properties, comparison of organic and inorganic zinc coatings, Apr 38
- Explosives, cleaning of equipment in refineries, chemical plants, Feb 21

## F

- Failure analysis program of plastic equipment failures in corrosive applications, May 23
- Fatigue, corrosion mechanism, characteristics, theory, Apr 30
- Feed systems, electrocoating process for automobile industry, Oct 37
- Ferrous chloride, inhibitor of corrosion of steel in hydrochloric acid, testing, Aug 38
- Fiberglass lined epoxy pipe, costs and uses in oil and gas industries, Feb 43
- Fiberglass reinforced polyester sheet for service in wastewater systems, Aug 22
- Film, dried, zinc rich epoxy coating characteristics, Apr 38
- Flame-spray coating processes, uses, Sept 21
- Fluidized bed calciner, May 35
- Foams, polyether cellular, fire-retardant, effects on metal surface, Aug 30
- Fouling and corrosion of centrifugal compressor, control by inhibitor injection, Sept 29
- Fouling, cooling water systems, Feb 15
- Fouling, effects on pretreatment design and planning for desalination systems, Oct 31
- Fouling in refinery equipment, use of antifoulants and inhibitors, Sept 29
- Fouling, metals in sea water, Feb 24
- Fouling, microbiological in cooling systems, Feb 15
- Fractures, tensional load, cause of failure in plastic equipment, May 23
- Fume scrubber, plastic, May 26

## G

- Galvanized steel parts for equipment in wastewater systems, Aug 22
- Galvanic aluminum anode systems for offshore service, Apr 26
- Galvanic anodes, Al-Zn-Sn alloy, performance in sea water, testing, Mar 38
- Galvanic efficiency, aluminum versus zinc anodes, Feb 33
- Galvanized wire rope, sea water corrosion of, testing, May 32
- Gilsonite coating for corrosion prevention of steel reinforcing bars in concrete, Oct 40
- Gold plated specimens used in stress corrosion testing, Nov 23
- Graphite, effect on gray cast iron pipe corrosion, Oct 33
- Grit blasting, roughening method in flame spray process, Sept 21
- Grooving, roughening method in flame spray process, Sept 21

## H

- HF alloy, modified, for hydrocracker service, testing, Mar 42
- H-oil processes, addition of corrosion inhibitors, Feb 18

## HEAT EXCHANGERS

- Desalination plant corrosion, testing of tubing, Oct 20
- Materials for desalination plant, Oct 17
- Stainless steel, for circulation of NaK eutectic alloy, causes of failure, May 35

Test, to monitor fouling in cooling systems, Feb 15  
 Tube bundles, carbon steel, corrosion of, July 21  
 Heat treatment, removal of sigma phase in cast HK tubes, Sept 24  
 Humidity, effects on corrosion of unclad aluminum alloys by fire-retardant polyether foam, Aug 30  
 HVDC, effect on underground pipelines, Feb 27  
 Hydrocracker service, testing of modified HF alloy, Mar 42  
 Hydrodesulfurization units in refineries, use of inhibitor injection to reduce fouling, Sept 29

#### HYDROGEN

Embrittlement, effect of cathodic current densities, Nov 31  
 Embrittlement of high strength steels, Nov 23  
 Sulfide, cause of corrosion in sewer system, May 28  
 Sulfide cracking of compressor components in refinery service, June 17  
 Sulfide cracking of oil field tubular steels, tests, Apr 23

#### I

Immersion, effects on cracking of steel in alkaline permanganate solutions, Apr 34  
 Impingement attack of metals in sea water, Feb 24

#### INHIBITORS

Additives; tests with aluminum, tabular data, Nov 27  
 Arsenic, for hydrochloric acid in testing stress corrosion of steel tubing for oil field service, June 23  
 Classification for use in oil and gas wells, Jan 31  
 Ferrous chloride for steel in aqueous hydrochloric acid and in sulfuric acids testing, Aug 38  
 H-oil process unit, effect of, Feb 18  
 Organic and inorganic compounds in cement, inhibition of reinforcing steel corrosion, Oct 40  
 Organic evaluation, for preventing cracking of carbon steel in low pH systems (tables), Apr 23  
 Organic, for hydrochloric acid in testing stress corrosion of steel tubing for oil field service, June 23  
 Organic for oil and gas wells, Jan 31  
 Polyphosphate compounds for mild steel in nitrogen fertilizer solutions, Mar 35  
 Potassium permanganate, effects on steel, Apr 34  
 Refinery equipment fouling, reduction of, Sept 29  
 Sodium metavanadate for carbon steel in monoethanolamine refining system, testing, July 21  
 Sulfur compounds for mild steel in nitrogen fertilizer solutions, Mar 35  
 Tests to determine effective inhibitors for aluminum, Nov 27  
 Titanium stress corrosion cracking prevention, Oct 26

#### INSPECTION

316 and 347 stainless steels by x-ray emission spectroscopy, Feb 30  
 Cast HK reformer tubes by photomicrographs, Sept 24  
 Coatings during industrial maintenance painting program, Feb 39  
 Coating tests on interior of potable water tanks, Apr 20  
 Epoxy resin coatings on structural steel in sea water, Jan 28  
 Monoethanolamine refining system, corrosion of equipment, July 21  
 Photomicrographs, detection of corrosion in HK and hydrogen reformer tubes, Sept 24  
 Plastic equipment, need and planning of a program, May 23  
 Radioactive waste storage tanks, stress-corrosion cracking, Jan 36

#### INSTRUMENTS

Anotrol model 4100 research potentiostat, Dec 33  
 Autographic pickling rate tester, Aug 38  
 Branford model 1900 blast cabinet for abrasive blasting, Aug 32  
 Constant deformation type stressing device for testing, June 31  
 Corrosometer probes, Dec 17  
 Electron microprobe, use in aerospace industry, Jan 34  
 Falling ball impact test apparatus, epoxy coating on structural steel, Jan 28  
 Manlabs unit, precracking titanium specimen, stress corrosion testing, Oct 26

Model 4510 linear scan accessory, Dec 33  
 Model 7035A X-Y recorder, Dec 33  
 Potential controller, studying polarization curves and corrosion rates of stainless steel, Sept 37  
 Variac for measuring flow velocity in feet per second, Dec 17  
 X-ray emission spectrograph, for identifying types 316 and 347 stainless steels, Feb 30  
 Iron, cast, construction material for wastewater systems, Aug 22  
 Iron, corrosion effect on desalting plant materials, Oct 31  
 Iron, ductile piping, domestic water systems, Jan 24

#### J

Joining methods, domestic water piping systems, Jan 24  
 Joint weakness, cause of failure in plastic equipment, May 23

#### L

Labor relations, contract painters for industrial maintenance painting programs, Feb 39  
 Leaching of chromium from chromated aluminum surfaces, July 26  
 Lead coating, coupled with steel reinforcing bar to prevent corrosion in concrete, Oct 40  
 Lignosulfonate packer muds, corrosivity, Dec 37

#### M

Magnesium, anodes, selection of the most economical, June 33  
 Maintenance education, training for corrosion engineers, Sept 32  
 Maintenance painting program for industries, Feb 39

#### MANAGEMENT

Education and training for corrosion engineer, Sept 32  
 Industrial maintenance painting program, Feb 39  
 Masking, surface preparation for flame spray coating process, Sept 21  
 Materials selection for construction of waste water systems, Aug 22

#### MECHANISMS

Aluminum corrosion, Nov 27  
 Copper in tropical sea water, atmosphere, Jan 41  
 Corrosion of hydrogen reforming tubes, Sept 24  
 Corrosion reaction fundamentals, Mar 47  
 Desincrustation of brasses, tropical sea water, Jan 41  
 Failure of aluminum sheet in ventilation systems, Aug 22  
 Fatigue cracking of oil well sucker rods (charts), Apr 30  
 Fouling in water cooling systems, Feb 15  
 Galvanized steel reinforcement in concrete, Mar 44  
 Mill scale effects on steel, Jan 19  
 Passivation of inhibitors, July 21  
 Stress corrosion and hydrogen embrittlement, Nov 23  
 Surface effects which initiate a corrosion process, June 27  
 Thermal fatigue and/or brittle fatigue, likely cause of failure of NaK loop in waste calcining facility, May 35

Medical research, use of electron microprobe for determining corrosion rate, Jan 34

#### METALLURGY

Cracking susceptibility of titanium, effect of, Oct 26  
 Education, training for corrosion engineer, Sept 32  
 Elect on microprobe, use in studying phase systems, Jan 34

#### METALS, EXCEPTIONAL

Inconel alloys tested in hydrogen sulfide environments, June 17  
 Molybdenum, bond coat in flame spray process, Sept 21  
 Monel alloys tested in hydrogen sulfide environments, June 17  
 Mortar coatings for concrete, Mar 21  
 Tantalum-tungsten alloy, corrosion performance of, testing, July 34  
 Zirconium, corrosion resistance, physical properties, and applications, July 40  
 Microbiological fouling in cooling systems, Feb 15  
 Mill scale, effect on coating performance, Jan 19  
 Mill scale, effect on corrosion of reinforcing steel bars in concrete, Oct 40

Mining method of explosive cleaning of refinery equipment, Feb 21  
 Molybdenum, for preventing corrosion of stainless steel, Jan 39  
 Monel, sea water effects on, Feb 24  
 Monoethanolamine refining system, corrosion of carbon steel components, testing, July 21  
 Mortar coatings for concrete, Mar 21

#### N

NACE  
 Technical committee report—Controlling noise induction and injection into voice frequency telephone circuits from cathodic protection rectifiers, Nov 65  
 Technical committee report—Contract and Plant Force Painting: Advantages and Disadvantages, Feb 39  
 Technical committee report—Survey of Corrosion Control in Drilling and Annular Fluids, Dec 46  
 Nickel aluminate, bonding coat in flame spray coating process, Sept 21  
 Nickel, copper alloy, tubing in desalination plant, Oct 20  
 Nickel, coupled with steel reinforcing bar, prevention of corrosion in concrete, Oct 40  
 Nitrogen fertilizer solutions, corrosion of mild steel in, testing, Mar 35  
 Nuclear reactor systems, water cooled, decontamination of components may cause corrosion, Apr 34

#### O

Ocean outfall line, protection of, May 28

#### OFFSHORE

Al-Zn-Sn alloy anodes for cathodic protection, Mar 38  
 Anodes, aluminum, Apr 26  
 Cathodic protection, unique design of aluminum anodes, Nov 21  
 Copper base metal corrosion, tropical environment, Jan 41  
 Epoxy resin coatings for steel in tidal zone, Jan 28  
 Oil field tubular steels, sulfide corrosion cracking in low pH systems, Apr 23  
 Oil well sucker rod, fatigue cracking of, Apr 30  
 Organization of corrosion group, types, responsibilities, Sept 32  
 Oscilloscope, use in displaying results of microprobe analysis, Jan 34  
 Oxygen concentration, effect on steel bar corrosion in concrete, Oct 40  
 Oxygen, desalting plant materials corrosion effect of, Oct 31  
 Oxygen, effect on corrosion mechanism in hydrogen reformer tubes, Sept 24

#### P

Personnel training for automatic potential controlled rectifiers, Aug 26

#### PETROLEUM INDUSTRY

Fiberglass lined epoxy pipe, costs and uses, Feb 43  
 H-oil processes, adding corrosion inhibitors, Feb 18  
 Lignosulfonate-treated systems, corrosivity of, Dec 37  
 Oil well sucker rods, fatigue prevention, Apr 30  
 Organic inhibitors for oil and gas wells, Jan 31  
 Tubing, steel, stress corrosion testing in aqueous hydrochloric acid, inhibited and uninhibited, June 23  
 pH, effect on corrosion reinforcing steel bars in concrete, Oct 40  
 Phenolic coating system for potable water tanks, Apr 20  
 Phosphoric acid, corrosion of stainless steel, Sept 37  
 Phosphoric acid, corrosion of carbon steel equipment, May 39  
 Pickling of steel by use of hydrochloric acid, Aug 38  
 Pickling, surface preparation for structural steel, Jan 19  
 Piping, polyester, case histories, May 19

#### PIPELINE

Corrosion failure expectancy curve, value of, July 33  
 Ductile iron versus gray cast iron, comparison of soil corrosion resistance, characteristics, Oct 33  
 Epoxy line pipe service in oil and gas industries, costs, Feb 43  
 Materials selection, desalination plant equipment, Oct 31  
 Plastic, for chlorine water service, Aug 22

Plastic coatings for shrink sleeves for pipe joints and wrap-around sleeves for multipart assemblies, Aug 35  
 Plastic, for water and wastewater systems, Dec 29  
 Underground, effect of HVDC, Feb 27  
 Fitting of aluminum, detection by electron microprobe, Jan 34  
 Pitting of stainless steel by phosphoric acid, Sept 37  
 Pitting of stainless steels in sea water environment, Feb 24

#### PLASTICS

ABS, coating, domestic water piping systems, Jan 24  
 ABS, uses, Dec 25  
 Applications in pulp and paper industry, case histories, May 26  
 Coating applications in underground electrical distribution systems, Aug 35  
 Equipment for corrosive applications, composition requirements, inspection program, fabrication difficulties, May 23  
 Heat shrinkable, formation and applications as coatings for corrosion control, Aug 35  
 Fiberglass reinforced epoxy coating, domestic water piping systems, Jan 24  
 Lining, sheet, for use in wastewater systems, Aug 22  
 PE, PP, GRP, uses, Dec 25  
 Pipe, for chlorine water service, Aug 22  
 Piping, advantages, disadvantages, Dec 25  
 Piping for water and wastewater systems, Dec 25  
 Polyether cellular foam, fire-retardant testing of effects on metal surfaces, Aug 30  
 Polyethylene coating, domestic water piping systems, Jan 24  
 PVC, coating, domestic water piping systems, Jan 24  
 PVC, uses, Dec 25  
 PVDC, uses, Dec 25  
 Reinforced, equipment for textile manufacturing, case histories, May 19  
 Tubing, for service in wastewater systems, Aug 22  
 Polyethylene, corrosion preventive casing for gray cast iron pipe, Oct 33  
 Polyether cellular foam, testing to determine effects on metal surfaces, Aug 30  
 Polyimide resins, effect on corrosion of metals, Nov 35  
 Polymeric films, effect on corrosion of metals, Nov 35  
 Polyphosphate compounds, performance as inhibitor for mild steel in nitrogen fertilizer solutions (tables), Mar 35  
 Polythionic acid, testing of a modified HF alloy in, Mar 42  
 Polyvinyl chloride lining in tunnel, failure of, May 28  
 Potable Water Tanks, testing of coating systems, Apr 20  
 Potassium permanganate as an inhibitor to stress corrosion cracking of steel, Apr 34  
 Potential controller, reduction of stainless steel corrosion in phosphoric acid, Sept 37  
 Preheating, surface preparation for flame spray coating process, Sept 21  
 Preservative, pre-gel, for ballast tanks of floating dry docks, July 3  
 Primary treatment plant, corrosion problems, May 28  
 Pulp and paper industry, use of plastic equipment in, May 26  
 Pumps, desalination plant equipment materials selection, Oct 31

#### Q

Quality control, definition role in corrosion prevention of electrical circuitry, June 27

#### R

Radioactive tracer procedure measures leaching rate of chromium from chromated aluminum surfaces, reliability of, July 26  
 Radioactive waste storage tanks, stress corrosion cracking, Jan 36  
 Radioactivity, sources in nuclear reactor systems, Apr 34  
 Reactors, in H-oil process units, Feb 18  
 Recirculating system, spin bath, constructed of plastic, case history, May 19  
 Rectifiers, APC, saturable-reactor and silicon controlled, for cathodic protection in sea water, Aug 26

Rectifiers, controlling noise induction and injection into voice frequency telephone circuits from cathodic protection rectifiers, Nov 65  
 Redox, measure of sulfide concentration in refinery overhead condensing systems, Dec 17

# REFINERY INDUSTRY

Boiler water carryover causes hydrogen reformer tube corrosion, Sept 24  
 Centrifugal compressor, failure of ferritic steel rotating elements due to sulfide stress cracking, June 17  
 Equipment cleaning, use of explosives, Feb 21  
 Fouling, corrosion of equipment, reduction by antifoulants and inhibitors, Sept 29  
 H-oil processes, adding corrosion inhibitors, Feb 18  
 Hydrocracker service, testing of modified HF alloy, Mar 42  
 Hydrogen reforming tube corrosion caused by boiler water carryover, Sept 24  
 Monoethanolamine refining system, causes of failure, July 21  
 Overhead pipe still condensers and cracking units, sulfide cracking in, Dec 17  
 Sulfide cracking in overhead pipe still condensers and in catalytic cracking units, Dec 17

# REPORTS (NACE)

Contract and Plant Force Painting: Advantages and Disadvantages. Report of Technical Unit Committee T-6D, on Application and Use of Coatings for Atmospheric Service, Feb 39  
 Controlling Noise Induction and Injection into Voice Frequency Telephone Circuits from Cathodic Protection Rectifiers, Nov 65  
 Survey of Corrosion Control in Drilling and Annular Fluids, Dec 46  
 Residence time, effect on corrosion rate of desalination plant material specimens, Oct 20  
 Rinsing, amount necessary after decontamination of nuclear reactor system, Apr 34  
 Rough threading, roughening method in flame spray process, Sept 21

# S

Safety, explosives for cleaning refinery and chemical process equipment, Feb 21  
 Safety, in fabrication and handling of reinforced plastic equipment, May 19  
 Salt concentration, effect on corrosion of reinforcing steel bars in concrete, Oct 40  
 Salt fog test of coatings for titanium, prevention of stress corrosion cracking, Oct 26  
 Salts, deicing, removal of snow and ice from highways, Oct 40  
 Sandblasting, repair of corroded hydrogen reformer tubes, Sept 24

# SEA WATER

Aluminum alloys tested for use in marine engines, Feb 31  
 Aluminum anode design, Nov 21  
 Aluminum galvanic anodes, electrochemical efficiencies, Feb 33  
 Applications of rectifiers, Aug 26  
 Automatic potential control rectifier system for cathodic protection, Aug 26  
 Ballast tanks of floating dry docks, corrosion of, July 31  
 Characteristics, effect on design of desalination plant, Oct 31  
 Characteristics, use in cooling systems, Feb 24  
 Cooling systems, effects of bacterial and biochemical action, metals and alloys, fouling, Feb 24  
 Desalination plant equipment, materials selection, Oct 17  
 Desalination plant history, corrosion of metals, Oct 20  
 Effects on corrosion of wire, testing (tables), May 32  
 Epoxy resin coating on steel bridges, waterfront facilities, industrial plant supports, Jan 28  
 Evaluation of Al-Zn-Sn alloy, anodes for service in, Mar 38  
 Hydrogen embrittlement tests; effect of cathodic current densities, Nov 31  
 Industrial coolant, uses, Feb 24  
 Tropical, corrosion of copper base alloys, Jan 41  
 Turbulence and wave action, effects on cathodic protection, Aug 26  
 Sequestants, cleaning agent for use in cooling systems, Feb 15

Service tee coated with heat-shrinkable plastic for gas distribution, Aug 35  
 Sewerage system, San Diego Metropolitan, corrosion problems of, May 28

Sheet materials, protection for concrete, Mar 21

# SHIP

Ballast tanks, Al-Zn-Sn anodes, protection of, Mar 38  
 Hulls, hydrogen embrittlement of, Nov 31  
 Shot peening, prevention of stress corrosion cracking of aircraft forging, Sept 34  
 Sigma phase, formation causes corrosion of stainless steel by NaK eutectic alloy, May 35  
 Silicon in aluminum alloys for marine engine cooling system fittings, Feb 31  
 Sodium hydroxide, effects on 90-10 tantalum-tungsten alloy, July 34  
 Sodium metavanadate, inhibitor of corrosion of carbon steel in hot monoethanolamine solutions, testing (tables), July 21  
 Splice encapsulators, coated with heat-shrinkable plastic, for crimp or split bolt splices of anode lead wire, Aug 35  
 Stearic acid, in abrasive mixture for inhibition of corrosion of freshly abraded steel, testing, Aug 32

# STEEL

Bridges dock side facilities with epoxy resin coatings, Jan 28  
 Carbon, construction material for wastewater systems, Aug 22  
 Carbon, corrosion in hot monoethanolamine solutions, testing, July 21  
 Carbon, corrosion in phosphoric acid and sulfuric acid, testing, May 39  
 Carbon, high strength, corrosion in low pH systems, Apr 23  
 Carbon, in ballast tanks of floating dry docks, corrosion of testing, July 31  
 Carbon steel radioactive waste storage tanks, stress corrosion cracking, Jan 36  
 Composition, construction, effect on stress corrosion cracking of storage tanks specimens, Jan 36  
 Condensers in refinery industry, corrosion of, Sept 29  
 Corrosion in concrete, causes, May 44  
 Cracking as a result of the decontamination process for nuclear reactor systems, Apr 34  
 Electrocoating process for automobiles, Oct 37  
 Ferritic, cracking in hydrogen sulfide environments, June 17  
 Galvanized, parts for equipment in wastewater systems, Aug 22  
 Galvanized, reinforcement in concrete (chart), Mar 44  
 High strength, stress corrosion and hydrogen embrittlement, Nov 23  
 Mild, corrosion in nitrogen fertilizer solutions, testing (tables, charts), Mar 35  
 Mild, exposed to concentrated sulfuric acids, Dec 33  
 Organic inhibitors for oil and gas wells, Jan 31  
 Pipe, performance in domestic water systems, Jan 24  
 Reinforced bars, corrosion in concrete, Oct 40  
 Sheet, continuous, pickling with hydrochloric acid, testing of inhibition, Aug 38  
 Stress corrosion cracking of high strength steels, prevention by shot peening, Sept 34  
 Structural, corrosion prevention in building construction, Jan 19  
 Tin free, for can manufacturing, Dec 29  
 Tubing for desalination plant, Oct 20  
 Tubing for oil field service, effects of hydrochloric acid, inhibited and uninhibited, June 23  
 Waterboxes, desalination plant materials selection, Oct 31  
 Water storage tanks, Apr 20  
 Weathering corrosion preventive characteristics, Jan 19

# STEEL, STAINLESS

Construction material for wastewater systems, Aug 22  
 Corrosion resistance through uranium and molybdenum, Jan 39  
 Desalination plant equipment materials selection, Oct 17  
 Loop in waste calcining facility, failure of, May 35  
 Pitting and corrosion in phosphoric acid, Sept 37  
 Pumps in sea water, Feb 24

Rope, corrosion in sea water, testing, May 32  
 Sea water effects on, Feb 24  
 Shafts in sea water, Feb 24  
 Tests in hydrogen sulfide environments, June 17  
 X-ray emission spectroscopy to identify types 316 and 347, Feb 30

# STRESS CORROSION

Accelerated, facilitates testing of aluminum alloys, June 31  
 Aggressive solutions effects on high strength steels, tabular data, Nov 23  
 Aircraft forgings, prevention by shot peening, Sept 39  
 Cracking of alloys in polythionic acid, testing, Mar 42  
 Cracking of compressor components in refinery environments containing hydrogen sulfide, June 17  
 Cracking of high strength carbon steel in low pH systems, Apr 23  
 Cracking of metal by fatigue, Apr 30  
 Cracking of prestressed concrete, Mar 44  
 Cracking of steel as a result of decontaminating solutions in nuclear reactors, testing, Apr 34  
 Cracking of steel, immersion and rinsing effects, testing, Apr 34  
 Cracking of steel tubing in aqueous hydrochloric acid, inhibited and uninhibited, June 23  
 Environmental cracking of high strength steels, Nov 23  
 Radioactive waste storage tanks, detection and treatment, Jan 36  
 Titanium cracking, prevention through design, Oct 26  
 Sulfur compounds, performance as inhibitor for mild steel in nitrogen fertilizer solutions, (tables), Mar 35  
 Sulfur, effect on corrosion mechanism in hydrogen reformer tubes, Sept 24

# SURFACE PREPARATION

Abrasive blasting of steel may result in corrosion, inhibition by stearic acid, testing, Aug 32  
 Blasting, structural steel, Jan 19  
 Blasting with steel grit, use, Sept 21  
 Cast iron pipe, compared to steel piping, Oct 33  
 Cleaning, structural steel, Jan 19  
 Degreasing part for flame spray process, Sept 21  
 Masking, use in flame spray coating process, Sept 21  
 Molybdenum, bond coat of, flame spray coating process, Sept 21  
 Pickling, structural steel, Jan 19  
 Sandblasting, steel structures, Jan 28  
 Specifications, guide to writing, interpretation of, Jan 19  
 Stainless steel for inspection by x-ray emission spectroscopy, Feb 30  
 Structural steel, effect on coating performance, Jan 19  
 Undercutting, use in flame spray process, Sept 21

# T

# TANKS

Acid wash, plastic, case history, May 19  
 Ballast, of dry docks, floating coatings reduce corrosion, testing, July 31  
 Electrocoating process equipment, automobile industry, Oct 37  
 Potable water, testing of coating systems, Apr 20  
 Radioactive waste storage tanks, stress corrosion cracking, Jan 36  
 Stainless steel storage of phosphoric acid, corrosion rate studied, Sept 37  
 Tantalum-tungsten alloy, 90-10, history and corrosion performance of, testing, July 34  
 Temperature, effects on chromium leaching rate of chromated aluminum surfaces, July 26  
 Temperature, effects on corrosion rates of carbon steel, inhibited and uninhibited, July 21  
 Temperature, effects on corrosion by fire-retardant polyetherfoam of unclad aluminum alloys, Aug 30

# TESTING, FIELD

Aluminum anodes for offshore service (tables), Apr 26  
 Anodic protection; instrument to determine stainless steel corrosion rate, Sept 37  
 Carbon steel bundles under varying degrees of pH operation, Sept 23  
 Construction materials, domestic water systems, Jan 24  
 Continuous exposure, inhibitors for oil and gas wells, Jan 31

Copper base metals, tropical environment, Jan 41  
 Copper in severely corrosive soils, Sept 43  
 Cracking of ferritic steel in hydrogen sulfide environments, June 17  
 Ductile iron piping, underground corrosion of, Oct 33  
 Education for corrosion engineers, Sept 32  
 Electrochemical efficiencies of aluminum galvanic anodes in sea water, Feb 33  
 Gray cast iron piping, underground corrosion of, Oct 33  
 HVDC effect on underground pipelines, Feb 27  
 Influence of moisture content, absorption and added chloride on the electrical resistivity of concrete (charts), Mar 29  
 Inhibitors for H-oil process unit, Feb 18  
 Lignosulfonate packer muds, corrosivity, Dec 37  
 Organic inhibitors for oil and gas wells, Jan 31  
 Paint systems for potable water tank interiors (table), Apr 20  
 Persistent filming, inhibitors for oil and gas wells, Jan 31  
 Reinforcing steel bars in concrete, corrosion of, Oct 40  
 Sea water effects on wire strand and wire rope (tables), May 32  
 Sodium metavanadate as inhibitor of corrosion of carbon steel in a monoethanolamine refining system, July 21  
 Underground pipelines, effect of HVDC, Feb 27

# TESTING, LABORATORY

316 and 347 stainless steels by x-ray emission spectroscopy, Feb 30  
 Accelerated corrosion facilitates testing of aluminum alloys, June 31  
 Aluminum alloy anodes for offshore service (tables), Apr 26  
 Aluminum alloys for marine engine cooling system fittings, Feb 31  
 Aluminum anodes for sea water cathodic protection systems, Feb 33  
 Al-Zn-Sn alloy anode for sea water service (charts and tables), Mar 38  
 Anodic polarization of mild steel exposed to concentrated sulfuric acids, Dec 33  
 Carbon steel, corrosion rates in sulfuric and phosphoric acid, May 39  
 Charpy impact test on cast HK tubes, Sept 24  
 Coatings, inorganic and organic, comparison, Apr 38  
 Coatings to prevent stress corrosion cracking of titanium, Oct 26  
 Corrosion rates determination as function of pH value, sulfide, chloride and cyanide concentrations of various aqueous solutions, Dec 17  
 Corrosiveness of tantalum compared with 90-10 tantalum-tungsten alloy in various acids, July 34  
 Cracking of ferritic steel in hydrogen sulfide environments, June 17  
 Cracking of nuclear reactor system components during decontamination (charts and tables), Apr 34  
 Environmental cracking susceptibility of high strength steels, Nov 23  
 Falling ball impact test, epoxy coating for structural steel, Jan 28  
 Ferrous chloride as inhibitor of steel corrosion in hydrochloric acid and in sulfuric acid, Aug 38  
 H-oil process unit, corrosion inhibitors, Feb 18  
 HVDC, effect on underground piping, Feb 27  
 HVDC transmission through the earth, Feb 27  
 Influence of moisture content, absorption, and added chloride on the electrical resistivity of concrete, equation and equipment for measurement, Mar 29  
 Inhibition of aluminum corrosion, Nov 27  
 Inhibitors, comparison for preventing cracking of carbon steels in low pH systems (tables), Apr 23  
 Inhibitors for prevention of fatigue cracking of metal (charts), Apr 30  
 Inhibitors to reduce corrosion of refinery equipment, Sept 29  
 Leaching rate of chromium from chromated aluminum surfaces, July 26

Mild steel in uninhibited and inhibited nitrogen fertilizer solutions, (tables, charts), Mar 33  
 Modified cast HF alloy in polythionic acid (tables), Mar 42  
 Molybdenum in stainless steel to prevent corrosion, Jan 39  
 Organic coatings, adhesion tests, Nov 35  
 Paint performance on prepared steel surfaces, The Steel Structures Painting Council, Jan 19  
 Polarization and corrosion studies on stainless steel specimens in phosphoric acid, Sept 37  
 Polyether cellular foam effects on clad and unclad aluminum alloys, Aug 30  
 Reinforcing steel bars in concrete, corrosion of, Oct 40  
 Salt fog testing of coatings for titanium, prevention of stress corrosion cracking, Oct 26  
 Salt spray, NCEL, inadequacy results in modification, July 31  
 Sodium metavanadate as inhibitor of corrosion of carbon steel in a monoethanolamine refining system, July 21  
 Stainless steel, construction material in NaK loop in waste calcining material, effects of NaK eutectic alloy on, May 35  
 Stainless steel with uranium and molybdenum additions, Jan 39  
 Stearic acid in abrasive mixture for inhibition of corrosion of freshly abraded steel, Aug 32  
 Steel tubing, effects of hydrochloric acid, inhibited and uninhibited, June 23  
 Stress-corrosion cracking of radioactive waste storage tanks, Jan 36  
 Sweet and sour exposure environments, testing inhibitors for oil and gas wells, Jan 31  
 Uranium in stainless steels to prevent corrosion, Jan 39  
 Weight loss to determine extent of corrosion, desalination plant tubing, Oct 20  
 Wheel type film persistency test for inhibitors, Jan 31

#### TESTING, NONDESTRUCTIVE

Education, training for corrosion engineer, Sept 32  
 Electron microprobe in aerospace industry, Jan 34  
 F-test, statistical measure to compare the precision of two sets of measurements, July 31  
 Radioactive tracer procedure detects chromium leaching rate from chromated aluminum surfaces, July 26  
 Ultrasonic, comparing corrosiveness of 90-10 tantalum-tungsten alloy with pure tantalum, July 34  
 Textile manufacturing equipment, reinforced plastics applications and advantages in, case histories, May 19  
 Tin, alloy anodes of, evaluation of performance in sea water, Mar 38  
 Tin plate, electrolytic for can manufacturing, Dec 29

#### TITANIUM

Design, to prevent stress corrosion cracking, Oct 26  
 Polymeric films, effect on corrosion of, Nov 35  
 Sea water effects on, Feb 24  
 Stress corrosion cracking, prevention by shot peening, Sept 39  
 Stress-corrosion cracking, prevention through design, Oct 26  
 Training on-the-job for corrosion engineers, Sept 32  
 Tropical environment, copper base metal, Jan 41  
 Tubesheets material in desalination plants, Oct 31

#### U

Undercutting, surface preparation for flame spray coating process, Sept 21

#### UNDERGROUND CORROSION

Cast iron pipe for domestic water systems, Jan 24  
 Cathodic protection program, economics of, July 33  
 Copper in severely corrosive soils, Sept 43  
 Ductile iron pipe versus gray cast iron pipe, Oct 33

Electrical distribution system, coated with heat shrinkable plastic for corrosion prevention, Aug 35  
 Radioactive waste storage tanks, cracking, Jan 36  
 Uranium, for preventing corrosion of stainless steel, Jan 39

#### V

Valves, air release, corrosion of in Pt. Loma tunnel, May 28  
 V-belt guards, plastic, May 26  
 Velocity-cavitation attack on metals in sea water, Feb 24  
 Velocity, function of corrosion rate in desalination plant tubing materials, Oct 20  
 Velocity, water, effects on cathodic protection, Aug 26  
 Vibration method of explosive cleaning of refinery equipment, Feb 21  
 Vinyl coating system for potable water tanks, Apr 20

#### W

Waste calcining facility, effects of sodium-potassium on stainless steel in, testing, May 35

#### WATER

Altoona, use in testing aluminum alloys for engine cooling system fittings, Feb 31  
 Cooling systems, mechanism of fouling, Feb 15  
 Domestic piping systems, history, Jan 24  
 Domestic piping systems, performance of construction materials, Jan 24  
 Fouling in cooling systems, case histories, Feb 15  
 In concrete, effect on corrosion, (charts), Mar 29  
 Salt, effect on stress corrosion cracking of titanium, Oct 26  
 Tanks, potable, evaluation of coatings for service, Apr 20  
 Waste, characteristics, Aug 22  
 Waste treatment systems, materials selection for construction, Aug 22  
 Waterboxes, materials selection for desalination plant, Oct 31

Weathering steel, corrosion preventive characteristics, Jan 19  
 Welding, effect on stress corrosion cracking of radioactive waste storage tanks, Jan 36  
 Welding, repair of corroded hydrogen reformer tubes, Sept 24  
 Welding, zirconium, proper use of inert gas shielding techniques, July 40

#### X

X-ray, electron microprobe technique for determining corrosion rate, Jan 34  
 X-ray emission spectroscopy, indentifying types 316 and 347 stainless steels, Feb 30

#### Z

#### ZINC

Alloy anodes of, evaluation of performance for sea water service, Mar 38  
 Coating coupled with steel reinforcing bar, prevention of corrosion in concrete, Oct 40  
 Coating for structural steel, corrosion prevention in building construction, Jan 19  
 Coating for titanium, prevention of stress corrosion cracking, Oct 26  
 Copper-zinc alloys, sea water, Jan 41  
 Epoxy coatings, properties of, comparison of organic and inorganic zinc coatings, Apr 38  
 Flame spray process, application of, Sept 21  
 Granules, for inhibition of corrosion of freshly abraded steel, Aug 32  
 Post-cured, advantages, disadvantages, Jan 19  
 Self-cured, advantages, disadvantages, Jan 19  
 Zirconium, corrosion resistance, physical properties, and applications, July 40

Topics covered include anodic protection, automobile corrosion, cathodic protection, high voltage direct current interference, coatings for atmospheric and underground use, chemical process industry, inhibitors, desalination corrosion, sulfide environments, high purity water, inorganic and metallic coatings, chemical cleaning, plastic materials of construction, petroleum refining industry and others.

## PROCEEDINGS 1968 NACE Conference

Eighty-four technical papers in 750 pages 8 3/4 x 10 3/4 inches, sewed pages, hard back, cloth bound. Hundreds of tables, graphs and figures. Voluminous references. Alphabetical author index.

Per Copy

**\$30**

NACE Members, \$25

Add \$1.50 book post registry. Add 3% tax to Texas addresses.

NATIONAL ASSOCIATION of CORROSION ENGINEERS

2400 W. Loop S.

Houston, Texas 77027

## 1967 Fourth Edition CORROSION DATA SURVEY

Per Copy **\$60**

A revision of the widely used reference book of corrosion reactions in the chemical industry. Over 120 pages of tabulated data, listing 1700 corrosive compounds and more than 10,000 changes, deletions, corrections and new notations. About 50 materials of construction are rated as to inches penetration per year versus concentration and temperature.

Numerous data are given about performance of non-metals in corrosives. Syntheses of information about the most commonly encountered industrial corrosives are provided in charts. Cross references by main radical permits locating similar corrosives.

164 pages approx. 8 3/4 x 10 3/4 inches, sewed, hard back, cloth bound. Add book post registry \$1.50. Add 3% sales tax to Texas addresses. Foreign remittances negotiable for equivalent sum in U.S. funds.
